

**A Stab in the Dark**  
Sometimes falls of its murderous intent. The insidious and dastardly attacks made upon the reputation of Hostetter's Stomach Bitters by persons who seek to palm off cheap and fiery tonics as identical with it, or "the same thing under another name," or "equally as good," in most instances are not disconcerting upon the unprincipled traders upon popular credulity who attempt them, converting their speculations into ruinous failures. The Bitters is a pure, wholesome and thorough medicine, adapted to the total cure and prevention of fever and ague, biliousness, dyspepsia, constipation, biliousness, debility, nervousness and kidney troubles. Its every ingredient, unlike those in the imitations of it, is of an ascertained standard of excellence, and while they by reason of their fiery properties, react injuriously upon the brain and nervous system, of both those organs it is a sedative and invigorant. Refuse all these harmful imitations.

**The Latest and Greatest Discovery**  
Dr. J. DePratt's Hamburg Fig. A crystallized fruit cathartic. A discovery of the greatest interest to the medical profession. A boon to every household. A most delicious laxative or purgative, prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints, habitual constipation, indigestion, dyspepsia and piles, they are a specific. To travelers by sea and land they will be found invaluable; they are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every druggist throughout the world. Price 25 cents a box. J. DePratt & Co., prop's, 9 and 11 Front St., San Francisco, Cal.

**Don't Trifle with any Throat or Lung Disease.** If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

**A Sound Legal Opinion.**  
E. Bainbridge Munday, Esq., County Attorney, Clay County, Texas, says: "Have used Electric Bitters with most happy results. My brother also was very low with Malaria Fever and Jaundice, but was cured by timely use of this medicine. An satisfied Electric Bitters saved his life."  
Mr. D. I. Wilcoxson, of Horse Cave, Kentucky, adds a like testimony, saying: "He positively believes he would have died had it not been for Electric Bitters."  
This great remedy will ward off as well as cure all Malaria Diseases, and for all Kidney, Liver and Stomach Disorders, stands unequalled. Price 50 cts. and \$1. At Hodgkinson & Co.'s.

**At Night Always have Acker's Baby Soother at hand.** It is the only safe medicine yet made that will remove all infantile disorders. It contains no Opium or Morphine, but gives the child natural ease from pain. Price 25 cents. Sold by W. FINKNER, Druggist.

**Don't Experiment.**  
You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottles free at Hodgkinson & Co.'s drug store. Large bottles \$1.

**Babies That are fretful, cross, or troubled with Windy Colic, Teething Pains, or Stomach Disorders, can be relieved at once by using Acker's Baby Soother. It contains no Opium or Morphine, hence is safe. Price 25 cents. Sold by W. FINKNER, Druggist.**

**Cramps of the Muscles Cured.**  
John L. Wood, of Stratford, Ont., was cured of cramps in the legs by wearing Alcock's Puroso Plasters. Mr. Wood says: "Some three months ago I was taken very sick with severe pain in the small of my back over the kidneys. The pain was excruciating. I applied an Alcock's Puroso Plaster over the affected region and had relief almost within an hour. At the same time, in conjunction with this trouble, I had very severe nervous disturbance, affecting my legs with cramps, and I could scarcely sleep. Meeting with much success with my leg, I applied a plaster under the knee on each leg, and in three days was completely cured, and have never been troubled in either way since."

**Many Of the good things of this life are sorrowful.** Ickler's Dyspepsia Tablets will cure Dyspepsia, Indigestion and Constipation; sold on a positive guarantee at 25 and 50 cents, by W. FINKNER, Druggist.

**Save The Children.** They are especially liable to sudden Colds, Coughs, Croup, Whooping Cough, etc. We guarantee Acker's English Remedy a positive cure. It saves hours of anxious watching. Sold by W. FINKNER, Druggist.

**An Absolute Cure.**  
The ORIGINAL ANTHELMINTIC OINTMENT is only put up in large two-ounce bottles, and is an absolute cure for all worms, large, round, and flat, and all skin eruptions. Will positively cure all kinds of skin diseases. For the OINTMENT, see ANTHELMINTIC OINTMENT. Sold by DePratt & Co., 9 and 11 Front St., San Francisco, Cal.

Live Stock Miscellany.

It is estimated that the wool clip of Colorado for 1888 will reach fully 12,000,000 pounds.

Forty carcasses of dressed beef are carried in one car, against sixteen head of live cattle.

A great deal more dehorning has been done in the West in the last few months than ever before in the same time.

Within the neighborhood of one hundred thousand head of cattle will be put on the ranges in Montana this Spring.

The highest price ever paid for a thoroughbred horse in America was \$40,000, by Leonard Jerome, for Kentucky, by Lexington.

Quite a stir is created by the spread of pleuro-pneumonia in North Dorset, England, and a large number of cattle have been slaughtered.

According to the latest statistics there are in France 13,275,021 cattle, 23,688,230 sheep, 1,420,112 goats, 5,774,924 pigs and 2,938,489 farm horses.

With a good season and the exercise of sound judgment, another year will see the live stock industry on a better basis than ever before.

The largest thoroughbred breeding establishment in America is the Belle Meade stock farm, Sumner county, Tenn., which contains 4,000 acres.

The Kentucky bred horse Abbotford, formerly Mistake, is the only horse in the history of the world that has won races in England, France and America.

The richest stake ever won in America was the Peyton stake, run in Nashville in 1843, which was worth \$41,000 net to the winner. Distance, four mile heats.

Professor Arnold states that it costs more to make milk from old cows than it does from young ones having the same milk capacity. As a rule the best effects do not last beyond the eighth year of the cow's age.

Commissioner Coleman estimates that the introduction of one bull with pleuro-pneumonia into Missouri cost the people of that State \$1,000,000. And the introduction into Kentucky cost the State \$2,000,000. The outbreak at Chicago cost Illinois more than \$7,000,000.

The Argentine Republic, South America, imported 25,698 improved sheep for breeding purposes in the first nine months of 1887, against 12,519 in the same part of 1886. This means stronger competition from that section in the near future.

The following from a South Australia letter in an English paper sounds huge: "We are having a fine season here, and I have already shorn 112,000 sheep, and sent away 600 bales of secured wool. We hope to shear 290,000. We have had a good lambing—we have 230,000 lambs."

Texas or splenic fever, from official reports, was discovered in 1887 in the States of Colorado, Nebraska, Iowa, Kansas, Missouri, Illinois, Indiana, Arkansas, Texas, Minnesota, Michigan, New York, Pennsylvania, New Jersey and Ohio, and the Territories of Wyoming and Montana.

Mr. Armour and Jay Gould deny that they are in any way connected with the big international project for the control of the produce and beef trade of the country, with which their names have been associated along with a number of English dukes, the Rothschilds and the Czar of Russia.

The Citizen, of Tucson, Arizona, sighs for the cattlemen when it says that "some of our cattlemen, but two weeks since, were anxious to sell every available hoof on the range, for two cents, are kicking themselves at having nothing to sell at five cents, the present price. The trouble arises from a faulty oversight."

A new patent fiend is on deck with a patent to supercede branding. If all this genius claims for his process is true, he will get the everlasting gratitude of all stockmen and make a big fortune. This time he claims to have invented a dye that will change any color of hair on a creature to any desired tint, without injuring the hide beneath, upon one application. In this manner perfectly formed letters can be permanently dyed upon the hair, and the branding tools will be sold for scrap iron. (Denver Range Journal.)

Vitiated Blood

Scrofulous, Inherited, and Contagious Humors Cured by Cuticura.

"THROUGH THE MEDIUM OF ONE of your books received through Frank T. Wray, of Stratford, Ont., I became acquainted with your CUTICURA REMEDIES, and take this opportunity to testify to the fact that your CUTICURA has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, which I had contracted, and this, after having been pronounced incurable by some of the best physicians in our country. I feel it a pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar troubles may be encouraged to give your CUTICURA REMEDIES a trial. P. S. WHITTINGER, Leechburg, Pa. Reference: Frank T. Wray, druggist, Apollo, Pa.

SCROFULOUS ULCERS.

James A. Richardson, Custom House, New Orleans, on oath, says: "In 1870 Scrofulous Ulcers broke out on my back, until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I then saw a bottle of CUTICURA in a medicine store, and bought it. At times I could not lift my hands to my head, could not turn in bed; was in constant pain and was perfectly cured. No relief or cure in ten years. In 1878 I heard of the CUTICURA REMEDIES, used them and was perfectly cured. I was sworn to before U. S. Com. J. D. Crawford.

ONE OF THE WORM CASES.

We have been selling your CUTICURA REMEDIES for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of a child I ever saw was cured by the use of five bottles of CUTICURA RESOLVENT, CUTICURA and CUTICURA SOAP. The child was a white female, aged three years, and was suffering from worms. CUTICURA REMEDIES are sold everywhere. Price: CUTICURA, the Great Skin Cure, 50 cts.; CUTICURA SOAP, 25 cts.; CUTICURA RESOLVENT, the new blood purifier, \$1.00. POTTER DRUG AND CHEMICAL CO., Boston.

RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS

Along the Feather River.

GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and all Tropical and other Fruits.

RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is a rich, sandy loam, and cannot be surpassed in productiveness. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony Lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River a hundred times. There is no better land and no better place for a colony in the world. JOHN S. GILSON, Real Estate Agent, Reno, Nev.

"As good land as there is in Butte County."

JOHN BEALL, Biggs.

As fine a piece of land as there is in this county. First-class for cereals and fruits. L. D. FREER, Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world. M. BRIGGS, JR. Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California. —Niggs Argus.

No richer land can be found in all California.—Oroville Register.

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better. JACOB KRIEGER, Gridley.

It is all splendid fruit land without irrigation. WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California. Geo. W. CARM, Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich. —Oroville Mercury.

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me. G. K. SMITH, Banker, Biggs.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, be estimated, be worth at least \$500 per acre. At this rate, twenty acres in fruit within three years would be worth \$10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

The land is now for sale in tracts to suit at \$100 per acre, on easy terms—one third cash; balance in one, two and three years at eight per cent. per annum.

Buy ticket to Biggs. Fare from San Francisco, \$5.20; from Sacramento, \$2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars. Address,

Art Notice.

In a recent interview with a representative of the San Diego Bee, Stephen T. Gage, assistant of the President of the Southern Pacific Company, expressed the opinion that at a much earlier date than most people think, the population of California will be quite as large as the great State of New York. New York has a population of a little over five millions, and California has at present about one million two hundred thousand or one million three hundred thousand. There would be nothing really surprising if the expectancy of Mr. Gage, or something approaching to it, should be materialized during the present generation. Three millions may be looked upon as a certainty. Some may think this is a rose-colored view. But the development would be little, if any, greater than that which has taken place here within the lifetime of a large proportion of the present inhabitants of California. Within less than forty years the State has been converted from a Mexican cattle range, with practically no commerce with other countries, into a region dotted elaborately with productive orchards, vineyards and grain-fields, with thriving settlements and wealthy towns and cities, containing a pushing and enterprising class of people, partially gridironed with railroads, and enjoying a growing commerce with almost every part of the civilized world. The prospects in 1848 that Alta California would have in 1888 a population of 1,500,000 to 2,000,000, a great variety of industrial resources well developed, and a larger foreign and domestic commerce, were not as good, by any means, as the prospects now are that Mr. Gage's expectancy will have been fulfilled before the beginning of the twentieth century. The changes that have taken place within the past five years in some parts of the State are really more marvelous to contemplate. We are living in an age when industrial and commercial changes are rapidly made, when, practically what would have been the work of a century in the past is crowded into a few years. There is plenty of room in California to establish a much larger population than New York is now sustaining, and that without any crowding, and the resources of this State for the support of a dense population are infinitely great. To the shrewd observer it looks as if these were the later discovery which many of the new-comers to California have made, and which induces them to invest their wealth liberally in permanent improvements and in the development of new industries.

The Committee on Ways and Means has decided to report favorably upon a bill directly authorizing the Secretary of the Treasury to purchase bonds at his discretion with the surplus, to which objection cannot well be made. Money now locked up in the vaults of the Treasury will be restored to the channels of trade and the bonded indebtedness of the Government will be reduced the amount of the surplus as applied. The objection to this plan of using the surplus was that the Government would have to pay so high a premium. If the bonds had been placed at three per cent the premium would not exist. But as the bonds were placed at four per cent the Government must either pay the premium these bonds command in the market or the interest during the twenty years the bonds yet have to run. The Secretary of the Treasury will probably exercise his discretion about making purchases, and in any offer of bonds limit the rate of premium which will be paid at certain dates.

The discussion in the Senate Thursday on Stewart's amendment to the Alien Land law shows an appreciation on the part of leading Senators of the growing necessity of keeping America for the Americans. Foreign capital is welcome only when it comes to stay and to turn its increase into domestic channels. Otherwise it becomes a drain instead of a supply.

It is a mistake to suppose that making an exclusion treaty with China should suspend proposed legislation. Chinese come here from other places than China and there must be legislation any way to keep them out.

## NEWS OF THE DAY.

[PRESS DISPATCHES TO THE GAZETTE]

## THE READING STRIKE.

The Inside History Being Disclosed to a Congressional Committee.

WASHINGTON, Feb. 11.—The special committee of the House to investigate the Reading strike, got to work this morning. John L. Lee, of Philadelphia, a sympathizer with the railroad strikers, was the first witness. He said he did not consider there was any strike on the Reading road. It was a lockout of firemen. He said they refused to move cars at Port Richmond and General Superintendent Swigert, discharged them without giving them a hearing. There was an agreement that no man should be discharged except after a fair hearing. When the superintendent refused to reinstate men, pending a hearing, a general going-out followed. Subsequently a meeting was held in Pottsville, and it was resolved to effect a settlement. The witness and others went to Philadelphia and called upon Superintendent Swigert, and made arrangements to declare the strike off. There was no written agreement. Swigert was asked to put the agreement into writing, but he refused, and wanted to know if they questioned his veracity. Next day Swigert failed to live up to his agreement, and discharged representative men all along the line. The men went out as there was nothing else to do. Referring to the trouble at Elizabethport, New Jersey, the witness said it was the duty of these men to load the boat with coal for Corbin, in whose mine there was a strike, and believed the Reading company was trying to aid Corbin in his fight against the strikers. It was held by the strikers that the Reading company were keeping the Lehigh Coal company in its stand against the employees Corbin was asked to bring about a settlement between the company and the men. Corbin, together with Mead, of the railroad and coal company, suggested as a remedy a plan by which the coal market would be bulled and wages of the strikers be made to go up with the price of coal. This the strikers refused to accept. Corbin did not want to be known in the matter. Before the interview with Corbin, witness had endeavored to get work in the Reading shops as a machinist, but was told that he could not go to work; that he was doing more for the Reading company in assisting the strike than twenty-five machinists would be worth to the company and that the strike was a benefit to the Reading Railroad Company, "but we don't want the public to know it."

## Wrestling With The Tariff.

WASHINGTON, Feb. 11.—A Democratic member of the House Committee on Ways and Means stated this morning that it was improbable that the tariff bill could be laid before the full Committee in time for action and report to the House before March. The majority have struck a snag in the iron and steel schedule and are unable to agree upon an enlargement of the free list. Several times four or five articles have been placed on the free list and then taken out. The chairman of the Committee has the only document that is regarded as the bill, and it is stated that he is unable to read it without the aid of all his associates.

## A Woman Convicted of Murder.

Boston, Feb. 11.—The jury in the case of Mrs. Sarah J. Robinson rendered a verdict of guilty of murder in the first degree. In this trial she was charged with the murder of Prince Arthur Freeman, her nephew. Mrs. Robinson had previously been tried on the charge of killing her son and daughter, but the jury disagreed. The incentive to all the crimes with which she is charged was alleged to be securing the life insurance of her victims.

## Buried Under an Avalanche.

VIENNA, Feb. 11.—One of the avalanches which have occurred on the line of the Arlberg railroad buried Langen station and a mail train. Two thousand men are at work attempting to rescue the persons buried. Two large avalanches have blocked the tunnel on the line and it will be a week before it is again opened, despite the efforts of a large number of troops and workmen, who are engaged in removing the snow.

## The Big Opium Seizure.

NEW YORK, Feb. 11.—A Kingston (Ont.) special explains how the \$25,000 worth of smuggled opium seized yesterday at Redwood, New York, was brought East. It came from China to Vancouver, thence overland, via the Canadian Pacific, was discharged at Brockville and taken across the river in small lots and sent to the large cities market and packed as eggs. Special officers say that great quantities of opium are smuggled in this way.

## McGlynn and George.

NEW YORK, Feb. 11.—Henry George and McGlynn are out. At a meeting of the Anti-Poverty Club to-night McGlynn declared that George favored Cleveland's nomination and said: "The editors of the Standard (George's paper) have tried to sidetrack our party and we will not be side-tracked, nor will we be tall to the Democratic kite." He declared the United Labor party would run a candidate for President.

## Pleases Us, Also.

CONSTANTINOPLE, Feb. 11.—The Armenian Patriarch has sent a circular letter to the bishops of the Armenian Church, directing them to preach loyalty and quietness, and to forbid writings hostile to the Porte. The Patriarch will probably shortly withdraw his resignation. The Patriarch's action has pleased the Porte, which has ordered the reopening of the Armenian College.

## Prisoner Blunt Sues for Damages.

DUBLIN, Feb. 11.—The trial of the action of Wilford Blunt, who was recently convicted of a violation of the Crimes Act, against the police for \$25,000 damages for illegal arrest, commenced to-day. Blunt was present in the court-room, wearing the prison garb under his overcoat. Lady Blunt was also present. The court-room was crowded.

## The Office Sought the Man.

WASHINGTON, Feb. 11.—Judge Alexander McCreary, of Brooklyn, who at present holds the office of Solicitor of the Treasury, has been offered and

has accepted the position of Assistant Treasurer at New York, vice Candia, resigned. McCreary did not seek the office and accepted it only upon the solicitation of the President.

## Why He Resigned.

WASHINGTON, Feb. 11.—Senator Davis, of Minnesota, stated to-day that he resigned his place on the National Republican Committee about a month ago. "I resigned," he said, "because, under the action of the Chicago convention, in 1884, it seems improper for a Senator or a Representative to hold that position."

## TELEGRAPHIC BRIEVITIES.

—John L. Sullivan has accepted the offer of Jack Knifton to stand before him six rounds for \$200.

—A dispatch from San Remo says the Crown Prince is doing quite as well as can be expected after undergoing the operation of tracheotomy.

—The Marquis of Lansdowne has called his acceptance of the Vice-Royalty of India. Lord Stanley is definitely announced as his successor.

—The Vienna Tagblatt says it has received information that Russia and France are about to conclude a treaty of alliance similar to that between Austria and Germany.

—Gilbody, a member of Parliament, arrested last evening in London, left Eaton Square station for Dublin in company with his guards this morning. There was no demonstration.

—Dorman Weston, Andrew Carnegie, David Dudley Field and Chas. A. F. body were this morning heard by the Senate in favor of a bill providing for the settlement of international disputes by arbitration.

## Hardly Feasible.

Under the above caption the Carson Appeal publishes the following: The rumor that C. C. Powning will secure a nomination for Congress next Fall does not seem hardly in the order of things. He will have to go before the Democratic Convention against George Cassidy, one of the shrewdest convention manipulators in the State. Cassidy will come in with the great East solid, all of Ormsby and a part of Storey, while Powning can only depend on a part of Washoe and a few votes in Esmeralda and Lyon, and four or five in Storey.

While Powning's services for the Democratic party perhaps entitle him to a nomination, he has not been quite such a warhorse as Cassidy. Cassidy's influence would be for Powning, but it would cost so much to nominate him that he hardly think he would care to part with the shekels. However, it is none of our fight, anyhow.

Peavine District. Work will shortly be resumed in the mines of Peavine district, and there is every indication that important developments will be made there this Spring. A force of men will be put to work in the Grey Eagle Monday, and Captain Griffin will superintend operations in the Bevelhammer, which will commence about March 1st. The Antelope mine, which has been in litigation for several years past, is now free from all legal incumbrances, and George Clough, representing the owners, has gone to Boston for the purpose of making arrangements for its development. On his return it is expected that the mill will be repaired, and a large force of men put to work. Old Peavine has been enveloped in a dark cloud for many years, but the edges of the silver lining are now visible to those who have never lost faith in it.

## Discovered His Fault in Time.

A handsomely dressed young woman entered a crowded street car. A long-whiskered old fellow, wearing a dingy slouch hat and a suit of homespun clothes, got up and said: "Miss, take my seat. I don't look as well as these here gentlemen," nodding at several men, "but I've dislikered that I've got more politeness." The young woman sat down without thanking the old fellow, and, slyly winking at a woman whom she knew, whispered: "How do you like my gallant country hoozier? Don't you think that he would out quite a figure in a dime museum?"

"Miss," said the old fellow with a smile, which clearly bespoke his unconsciousness of the unladylike ridicule, "I've left my pocket-book thar on that seat. Will you please git up a minit?" The young woman got up. The old fellow sat down, and, stroking his whiskers, remarked: "B'leve I'll jest keep on settin' here, Miss. I stood up so much at the dime museum jest now that I'm sorter tired. I've got a feeble more politeness than these here gentlemen, but I have discovered that I ain't got nigh so much sense."—Arkansas Traveler.

## A TRAVELER'S OPINION.

Good Reasons Why Reno Should Keep Time in the March of Progress.

George A. Croft, an old resident of Denver, and for years engaged in writing descriptive pamphlets and tourist books for various railroad companies, arrived in Reno from the West this morning, and spent a pleasant and profitable day in inspecting the town and noting the many improvements made since he was last here. His first visit to Reno was about eight years ago, but since that time he has passed through several times, and being a close observer has kept note of the progress made.

In conversation with a GAZETTE reporter, he said: "Yes; I am astonished at the progress Reno is making, and that astonishment is increased by the fact that I am informed the merchants and people are opposed to booming, preferring to have the town grow on its own merits and that of the tributary country. I am opposed to booms myself, but it strikes me that a little organized effort on the part of your business men and capitalists would attract a very desirable class of settlers."

"As an instance of what organized effort will accomplish, I will mention the little town of Medford, in Oregon, which, four years ago, was merely a town-site, with a house scattered here and there. To-day it is a thriving little town of 2,500 people and its Board of Trade has a membership of 135, all merchants, who are actuated by a common desire to build the town up. And they are succeeding, too. The advantages of the town are kept constantly before the home-seeker, public improvements are encouraged, strangers made welcome, and every inducement held out to business men to locate there. What the people of Medford are doing can be repeated here. It is not necessary for people to say that Reno is growing, for one has only to look around at the many new and handsome residences and substantial business blocks for sufficient evidence of that fact; but that is only known to your own folks and to those who, like myself, occasionally have business here. Publish your resources and many advantages, and scatter the pamphlets broadcast throughout the country, and my word for it, you will soon notice the value of printers' ink."

Mr. Croft has been and still is a great traveler, has seen Denver grow from a struggling village in 1880 to the liveliest and most progressive city in the West, and at the present time it boasts of a population of 75,000. It bears the same relation to the Centennial State as does Reno to Nevada. Old settlers there had no faith in the brilliant future prophesied for it, and in that respect old settlers of Reno are similar. Concerted action on the part of Denver business men built that city up to its present magnificent proportions, and Reno merchants and capitalists can there find a precedent for organized effort.

Twenty years ago Denver had no more advantages and resources to boast of than Reno has at the present day, but it had the advantage of being favorably located for the controlling of a vast area of country. By reaching out for trade the Denver merchants soon made their town the commercial depot of the entire State. Reno is as favorably located geographically as Denver, has as great an inland empire to supply, a country as rich in resources, but is sadly lacking in enterprise. The foregoing is commended to our business men and capitalists for their consideration. Is the "game worth the candle?"

## The Gymnasium.

The gymnasium at the Armory Hall is now fully equipped and is, as it should be, a popular resort for the active and contributing members of the Reno Guards. The hall is open during the day and evening to all members, and on Tuesday and Friday evenings drills are given, by Messrs. Levy, Fassel and Lewis, all of whom are expert gymnasts. It is gratifying to learn of the success of the enterprise which will be conducive to both physical and mental culture. It is understood that the members propose having the leading drillers from the various parts of the country as soon as their means will permit them, and to start a nucleus for a library. No young man in Reno can afford to forego the advantages to be derived from being either an active or contributing member of the Reno Guards.

## Skinning Frozen Sheep and Cattle.

The following is from the San Francisco Examiner of the 10th inst.: "A private letter received from Hamilton, Nev., yesterday, reports the sheep-growers Lockwood and Davis to have lost about 1,500 head in the storm. They have a considerable force of men digging the carcasses out of the snow and skinning them. Numerous other sheep and cattle owners are also reported as skinning large numbers of dead animals. Losses in many sections are estimated at from 25 to 50 per cent, and it is thought that this is about an average of the entire State."

## Feeding the Indians.

The Government is issuing rations to the starving Plutes in the vicinity of Fort McDermitt. About twelve tons of flour and 22,000 pounds of beef will be distributed among them by the military. The idea, says the Silver State, of abandoning a post in a sparsely settled country, where the Indians largely outnumber the whites and have to be fed to prevent them from preying on the pale faces, would seem ridiculous were it not that it endangers the property and even the lives of a number of settlers.

## It is worth its weight in gold.

"It is worth its weight in gold," is a common expression. But, while the value of gold is easily seen, the value of a good reputation, as a blood purifier, is not so easily seen. It will eradicate all the poisons from the system, and give the blood a new life.

Henry Miller, of the firm of Miller & Lux, arrived from San Francisco this morning.

Henry W. Lawrence has been nominated by the Gentiles for Mayor of Salt Lake.

The loss of cattle in Lander county is reported as being unusually light this winter.

J. O. Green, of the firm of Clark & Green, proprietors of the Depot Hotel, Elko, is in town.

Carson boasts of dry streets. Nothing is said, however, of the dry residents by the local press.

The Southern Pacific has abolished limited first-class rates between San Francisco and Ogden.

Prof. Lee Chauvan will give a reading before the members of the Baptist Sunday-school to-morrow.

Quiriz Maroff, a saloon-keeper of Cortez, Lander county, has been arrested for selling liquor to Indians.

Negotiations are pending for the purchase of several hay ranches on the Meadows by Eastern Nevada stockmen.

Attention is called to the new advertisement of the Palace dry goods store, which appears in today's issue.

Nick Mullins, an employee of the Sutter Tunnel company, is reported to have won \$7,500 in the last lottery drawing.

Honey Lake, Lassen county, California, is rapidly filling up, and the usual depth of water will be attained in the Spring.

The streets of Virginia City are still blanketed up with snow. In Reno the streets have the appearance of macadamized roads.

Theodore Winters came in from Washoe today to attend the meeting of the State Board of Agriculture, of which he is a member.

F. H. Pavola, the Virginia street boot-maker, while engaged in hawking a sign yesterday, fell and suffered a fracture of the left wrist.

Angus Cary, bookkeeper for the past year at the Reno Reduction Works, has engaged to keep the books of J. V. McCurdy, at Dun Glen, Humboldt county, and will leave to-morrow to enter upon his duties there.

The coroner's jury investigating the Gold Run collision report the conductor and engineer of the passenger train as the persons to blame for the accident. Jack Connors was the conductor, and a man named Howard one of the engineers.

The second trial of George W. Lewis, for the murder of George Piccolo, is now progressing in Elko county. The plea of the defense is insanity, and much interest is manifested in the result, as the murder was cold-blooded.

P. T. Stevens, H. P. Steel and O. Adams, of Colorado, are stopping at the Depot Hotel. They are interested in the cattle business in the Centennial State, and to-day will inspect the various ranches on the Meadows, where alfalfa is being fed to cattle.

Rewards aggregating \$1,100 are offered for the arrest and conviction of the murderer or each of the murderers of Isaac N. Woodhouse, of Esmeralda county, supposed to have been killed about January 8, 1887, somewhere in the neighborhood of Teal's borax marsh.

Virginia Enterprise: A brandy-iron is a dangerous thing, hot or cold. J. P. Anderson of Humboldt didn't use one and it cost him \$5,000. What it would have cost him had he used the implement supposed to be true scepter of the cat: king remains to be found out.

TERRIBLE PAIN.

## FROM THE CAPITAL.

A Growl With a Moral—The Sentations of the Day.

Regular Correspondence GAZETTE.

CARSON, Feb. 10, 1888.

EDITOR GAZETTE:—It is remarkable the amount of interest people take in the economical management of other people's affairs, and particularly of the affairs of State.

It is said that those who are generally noted as being unable to adjust the niceties of their private business, come with a gratuitous rush with advice about squaring the corners of the State's drain. I note one of the Carson dailies makes the assertion that only one office of the State requires a deputy, and in making the announcement it shows how unfamiliar it is with the workings of the Capital, for one-third of the work of the department mentioned is done in other offices.

But it is the same old story, of the least informed, making the most noise. It is the usual howl of would-be statesmen, to save from the salaries of clerks, and let the actual workers of the State's business go without pay, while they manage a steal through the Legislature, costing the taxpayers more than the salaries would amount to in ten years.

The excitement of the week is evenly divided between the colored coupleman who whipped Clem Berry, the greatest calamity that ever fell to Carson—not excepting the man who drew the big prize in the Louisiana lottery a year ago, for that nearly broke the town—and the expected flood of a big silver lode by Norris, the divining-rod man, on the Langtry land near the famous one-bull cattle ranch of S. P. Davis, Esq., editor and proprietor of the Morning Appeal, terms reasonable. The art of rhabdometry is as old as time itself, and if half of Somershire, in England, is watered by wells found by these disciples, why not we in this age find silver by the same means.

We notice among the arrivals to-day Mr. M. Kirkpatrick, attorney-at-law, and one of the first of Nevada lawyers, who is brought to the Capital on legal business. Also the famous legal fighter, Frank River, who is accompanied by his neighbor, D. C. Simpson. Henry Williams, of Sweetwater, and Hon. Thomas Riekey are also taking in the balmy air of the Capital.

Last night a special train from Virginia and Gold Hill brought out thirty of the miners from the Storey county council of the Improved Order of Red Men, who came to assist in the raising of the Chiefs of Plute Council, No. 1, of this city, as follows: Prophet, E. C. Vonderhyde; Sachem, Joel Kasper; Senior Sagamore, Wm. H. Cowan; Junior Sagamore, Henry Summer; C. R. G. W. Chedick; Keeper of Wampum, George Tuffy. Many of the warriors were accompanied by their squaws, and from the fuss made and the rush for pin-ups we think it must have been a fine scene.

The land is most excellent soil for vine. The land is well timbered with huge white oaks, one oak in particular measuring thirty-six feet in circumference four feet from the ground.

The wood alone is very valuable, it being estimated that if cut into cordwood it could be readily sold for the total sum of \$40,000.

The land is well cultivated and produces thirty-five bushels of wheat, or sixteen sacks to the acre, and fifty bushels of barley. It will raise without irrigation eight tons of alfalfa to the acre. The land is within the citrus belt, and all kinds of citrus and deciduous fruits do well.

This is the best fruit land in the State of California and should be devoted to that purpose. There is a two-story house, also barns and outbuildings on the place as well as two small orchards.

The total yield this year from this place in grains, fruit and pasture has been about \$45,000. The owners have realized from rents alone \$18,000 this year. It lies well for cutting up into small tracts. It can be cut into 80-acre tracts, which will sell readily at \$100 per acre. If colonized and cut into smaller tracts we believe it could be sold for double that amount.

This perfect-confirmed Spanish grant of 80 years. This property is for sale at \$145,000; one-third cash, balance one, two and three years at 6 per cent. Similar land in this vicinity is rated at \$100 per acre.
